### Description

This ebook is intended for the subway commute, those few minutes between classes, or a serious study session. Lugging flash cards can be a real hassle, so my hope is that these electronic cards will make learning the cardinal numbers from 0-100 in French more enjoyable. For reference, this ebook includes a list of the numbers found on the flash cards. The Arabic number appears first followed by the French name for the number. If you wish to study a set from the French name to the Arabic numeral, jump to the end of the set and proceed backwards through the set, beginning with the French name and flipping to the Arabic numeral. Enjoy studying!
